Go to Fioda's New Cash Grocery for bargains.

Go to the Occidental Hotel if you want good accommodations.

The traveling public are invited to call at the Union Hotel.

Fruit trees. All kinds. Please order early. A. Dahms.

New Cash Grocery, San Francisco prices. Next door to Occidental Hotel, Sonoma.

\$100,000 to loan in sums to suit on approved security. Apply to Geo. O. Young, Petaluma.

There was quite a heavy fall of rain last Wednesday evening between the hours of 8 and 12 o'clock.

H. O. Manuel shipped a large load of basalt blocks from Sonoma Landing to Stockton last Thursday.

The rainfall for Sonoma, as reported by Robert Hall, resident Signal Service officer, for the late storm was 2.03 inches.

Go to Mundt's Cash Store for bargains. It is the cheapest store in town. Go and see for yourself and you will never regret it.

The Occidental Hotel, under the management of Mr. R. D. Moore and his estimable wife, is growing in popularity every day.

Geo. W. Sparks, Constable of this Township, has been appointed by the City Trustees Marshal and Tax Collector, vice U. P. Vallejo, who succeeded to the office last week.

The ladies of Sonoma declare that it is astonishing how cheap goods are sold at Mundt's Cash Store. They say dry goods can be purchased here cheaper than in San Francisco.

W. G. Corbaley, the gentlemanly Assistant Superintendent of the Sonoma Valley Railroad, who has been for some time incapacitated by sickness from attending to his duties, we are pleased to state is now back again.

By the new time table of the Sonoma Valley Railroad, which went into effect last Monday, the steamer James M. Donahue leaves San Francisco for Sonoma and way stations at 4 p. m., a half-hour earlier than by the old time schedule.

It was never exactly buried alive, said an old clerk recounting his experiences, but I once worked a week in a store that did not advertise.

When I came out my head was almost as white as you now see it. Solitary confinement did it. —Ez.

J. Burns has sold his farm, situated between Pioneer Grove and Agua Caliente, to Geo. H. Maxwell, who represents a syndicate, for \$10,000. A handsome new dwelling will be erected and other improvements will be made on the place in the Spring.

The speech of Senator Enos at the reception tendered the Sonoma Valley Exhibit appears in another column, and it is interesting reading.

We are enabled to give the Senator's remarks in full through the kindness of Mr. Geo. H. Maxwell, who reported the meeting phonographically.

The recent rains have started farmers to plowing. They say the ground was never in better condition for the plow at this season of the year, and in consequence they are in high spirits. Stockmen are also jubilant as the grass has started and in a few weeks feed will be plenty.

Judge F. Breitenbach has received from the Tax-Collector's office a full list of tax-payers, together with the amount due from each for State and county taxes. Those wishing to know how they stand in this respect will be given the information gratuitously by the Judge by calling upon him at his residence.

The third invitation party of the Extra Nons Social Club came off at Weyl's Hall last Wednesday evening. The night was a stormy one and in consequence many members of the club and invited guests were deterred from attending. However, about twenty-five couples were present and a very enjoyable time was had.

Work on the Donahue extension from Novato to Sears' Point, notwithstanding the stormy weather of last week, still continues to be pushed forward. The piling on both sides of Petaluma creek, where the drawbridge is to be constructed, is nearly completed, and only a short strip of the road-bed remains to be graded. The connection without a doubt will be made in the early spring.

On Thursday afternoon of last week the steamer James M. Donahue had a narrow escape from being wrecked on the east shore of San Pablo Bay. When near the light-house the rudder chain broke and the rudder refused to answer the helm, and before the break could be repaired the boat drifted helplessly with the tide, which was running out, a distance of several miles. At one time she approached dangerously near the shore, but through the strenuous exertions of Captain White this was averted. The chain after considerable trouble was repaired and when near Red Rock the steamer responded to the helm and proceeded on her way without further mishap, reaching Sonoma Landing two hours behind time.

A Tarantula Bite.

A gentleman in this city had quite an exciting and dangerous experience with a tarantula Sunday evening. While in the act of depositing an armful of wood beside the hearth, in which blazed a bright and cheerful fire, he felt a stinging sensation on his right wrist near the main artery. Thinking it was produced by a splinter from the wood which he had been carrying, he was in no particular haste to give it his attention. But as the stinging sensation continued, he was glanced from the fire which he was replenishing, and was horrified to discover a large tarantula clinging to his wrist. He was as one palsied for a moment, as with lightning rapidity everything he had ever heard concerning the agony and death of travelers who had been bitten by the tarantulas and scorpions, reviewed itself in his mind. He quickly recovered from the shock and brushed the tarantula into the fire. Knowing of no other remedy at hand, he applied his lips to the affected part and drew forth the poison a little at a time, until convinced by the appearance of the bite that none of the venom remained. He also applied lime juice to the part while drawing out the poison, which he thinks counteracted its effects if any was left in the wound. Santa Rosa Democrat.

The Reception to the Mechanics Fair Committee.

A public reception was tendered the Mechanics' Fair Committee by the citizens of Sonoma Valley at Weyl's Hall last Saturday evening. Speeches, eulogizing the work of the Committee in their efforts to secure the prize were made by Senator Enos, F. Dubring Jr. and H. Maxwell. In response remarks were made by Hon. Robt. Howe, Capt. J. H. Drummond, Capt. Boyes, and Robt. Peppé. A high compliment was also paid by the speakers to the ladies of the valley, particularly Mrs. Boyes and Mrs. K. F. Warfield, for their labors in making the exhibit a success. Rev. H. H. Wilcox presided and a large number of the leading citizens of Sonoma were present.

Not Expected to Survive.

Martin Slusser, of Mark West, is not expected to survive the wound inflicted in his right temple by a 32-calibre revolver bullet a few evenings ago. There is now little doubt but that the wound was self-inflicted and with suicidal intent. His little daughter, it is stated, passed the door of the room in which the deed was committed a moment before the shot was fired, and through the narrow opening between the partially closed door and the casing, saw the unfortunate man place the revolver to his head. It is thought his mind has been in an unsound condition for some time past. —Democrat.

Glen Ellen Gossip.

It rained here incessantly last week, making the roads very muddy and suspending all outside work.

The election of officers of the Parlor of Native Sons at this place was held last Saturday.

Work on the Santa Rosa and Carquinez Railroad has been entirely suspended and will continue so for at least one week, or until dry weather sets in.

Ben Cook of Sonoma came up on Monday's train and will take charge and manipulate the ribbons of Kohler & Frohling's large team.

There are a great many wild ducks in the creeks in this vicinity. We always contended that this was capital weather for ducks.

Quite a number of Glen Ellen's solid men were in Santa Rosa Monday.

Rheumatism.

Usually settles in the back or limbs, and often so completely overpowers its victims that all business and labor have to be abandoned. Our readers should remember that Hood's Sarsaparilla is not recommended as a positive specific for rheumatism; its proprietors doubt if there is, or can be, such a remedy. But many people who were most severely afflicted, state that they have been positively cured by Hood's Sarsaparilla. The disease is often the result of impure blood, hence the power of this great medicine over it. Its success in many severe cases justifies us in recommending its use to all sufferers from rheumatism. 100 Doses One Dollar.

Dear Joe: I received your letter a few days since, and if I did not know you too well, should certainly conclude that you had gone daft. You complain that your food distresses you, that your tongue is coated, you have a headache, and a disposition to shiver as if from cold, and that you are miserable generally. Now, just get a package of Freese's Hamburg Tea, and use it as directed, and, my word for it, in a week's time you will feel like a new man and thank me for this advice. Yours, Tom.

Mrs. Walker, living in North Headlandsburg, in some way got her clothes on fire at a fire-place Thursday morning. She rushed into the street and was caught by man and thrown into a horse-drawn carriage and the flames extinguished. She was not seriously burned.

COUNTY CULLINGS.

N. O. Smith, who moved from Healdsburg to San Francisco, has been most unfortunate of late. We referred to his being stricken with small-pox. Since his attack, from which he is slowly recovering, his two children have been stricken down, and Mrs. Smith is nursing them at the pest house. Doubtless she will contract the dreaded scourge also. —Enterprise.

John Callahan brought us a Burbank potato, grown on David Knowles' place, near the mouth of Russian river, that is nearly as long as a yard-stick. Mr. Knowles grew potatoes of the variety named weighing from six to seven pounds, and Humboldt weighing from three to four pounds. It doesn't take many to fill a sack, and will suffice to "fill" an ordinary family. —Enterprise.

Personal and Social.

Miss Eloisa Pauli left for Ogden, U. T., last Thursday morning.

Mrs. Ellen Glynn, owner of the Sonoma House, was in town this week, looking after her property interests.

Prof. J. Mort. Smith is the guest of Mr. Chas. McHarvey. He comes from near Mr. McHarvey's home of 35 years ago, in the Keystone State.

The Sacramento Bee says: The Southern Pacific has recently had a new kind of emigrant sleeping car fitted up at the shops in this city for use on its lines. It is a decided improvement on the old cars. The upper berths are built upon the Pullman plan and so arranged that they can be closed or open at pleasure. The windows also are larger than those usually found on emigrant sleepers, while the lavatory conveniences are all that could be desired. There is a sink for washing dishes; also, large heaters over the stoves, by means of which travelers can heat up their food en route. It is intended to have a number of similar ones built as soon as possible.

There came to the Controller's office to-day from Monterey county a claim for \$443.37 for the aid of aged and indigent persons. Among the list of those entitled to this aid is the name of Gabriel, an Indian, whose age is 132 years, he oldest man in the United States. He was born in the year 1755. When George Washington had almost forgotten the cherry tree incident, Gabriel was probably raising the scalps of aborigines in Arizona or Southern California. —Sacramento Bee, Dec. 1.

The Southern and Central and Union Pacific Railroads are carrying 1,000 persons a day to California, which, with the other routes increase the figures to 2,000 daily. This traffic will last three months, and at that rate 180,000 people will have been carried to the Golden State. If one-third of them stop there the traffic both to and from will be an unmistakable boom in the earnings of these roads which will bolster them up and make their stock worth several points more than at present.

WHO WROTE SHAKESPEARE?

How the Element of "Doubt" Leads to Grand Accomplishments.

The world is agitated again over the question of who was the author of Shakespeare's plays.

The world is full of doubting Thomases.

The man who has been successful in exciting the press in matters of this kind is, like most successful agitators, an Irishman. He claims to have discovered a cipher running through the Shakespearean plays which proves them to have been written by Lord Bacon. It is also claimed that there is a cipher in the epitaph on the moss-grown tombstone, which, properly interpreted, leads to the same conclusion.

This age shows a decided inclination to pry into mysteries.

It can make no difference to Shakespeare now whether the world believes he wrote the plays that bear his name or not.

The plays are immortal.

Ignatius Donnelly cannot rob us of these grand works, even though he should succeed in robbing Shakespeare of his glory.

Were it not for doubting Thomases many of man's great accomplishments would never have been brought to successful issue.

Men have been stricken down without warning. Don't put in motion the investigation which ascertained the cause. After the discovery of the cause, the world was ignorant of any remedy with humanity, and medical science said it was impossible. Doubt led the way to the light, and Warner's safe cure solved the seemingly unsolvable problem. Its friends tell us with conclusive proof that the unsuspected kidney disease befalls the blood and causes most of our diseases!

For years the heart was looked upon as the most important organ in the body, but doubt led to further inquiry, which developed the fact that the kidneys are the real blood-purifiers of the system and these organs now attract the first attention of the careful practitioner.

It is now a recognized fact that if they are put in a healthy state by the use of that remedy possessing such wonderful curative and cleansing powers most of the prevailing diseases of the system will be easily overcome, since their cause will be removed.

How unimportant, in comparison with such problems, is the present discussion as to the authorship of Shakespeare!

The traveling public praise the Occidental Hotel, R. D. Moore proprietor.

JUST ARRIVED.

We are determined to establish in Sonoma this branch of our business, as we have in other towns and

CORRAL THE DRESS GOODS TRADE

In defiance of city or any other competition. In connection with our other stores, we are able to keep a large assortment with but one or two Dress Patterns of a kind. Out of the above number we shall sacrifice about 75 pieces in the next two weeks in order to start the trade.

Those coming first will get veritable bargains.
